## ED SUDDENLY.

Man on Hiking Trip, Died Near Hickman Sunday.

A prominent and well-to-do farmer near Lynville, in the southeast part of Graves county, G. Melton, died suddenly and unexpectedly at 2 o'clock Sunday morning, in Bayou de Chien bridge, two miles from Hickman. Deceased was a member of a fishing and camping party that arrived on the river Saturday night to have a few days' outing. Beside Mr. Melton, in the party were his wife, two daughters, two grandsons and one other.

Shortly before 2 o'clock Sunday morning, his wife heard Mr. Melton faintly strangling and rushed to him. He died within a few seconds in his wife's arms. A ruptured blood vessel in the head was assigned as the cause of death. He was slightly over 58 years old. The remains were prepared for burial by Barrett & Ledford, undertakers, and carried back overland to Lynville, Sunday. H. C. Barrett, who accompanied the party and remains to the old home, says an unusually large crowd had assembled to meet them.

The supply of kerosene will run short next winter and the government is urging every user to do his part toward making every gallon do full war duty by giving forth its full measure of light and heat. Saving can be accomplished, it is said, only if care is given lamps, lanterns, heaters and stoves.

There are now close to a million and a half Americans in France. No wonder business is picking up. There is even some little peace talk leaking out, but John and the boys are going to see Berlin before this thing is over.

Are you still borrowing your neighbor's Courier? Shame on you!

## KEEP GARDENING.

Many Late Vegetables May Yet Be Raised in This Section.

The government has issued a crop map divided into zones. Western Kentucky is in Zone E and in discussing late gardens the bulletin says fall vegetable crops may be planted up to the following dates: Bush beans August 15, beets August 15, celery August 1, kale September 15, lettuce October 1, parsley, September 1, radishes September 15, spinach September 1, Turnips September 1, early corn, tomatoes and late cabbage may also be planted up to August 15.

## ENTERTAINMENT.

Benefit Red Cross at Sylvan Shade Friday Evening.

Misses Perry, Hamblet and Prather have arranged a good program for the entertainment at Sylvan Shade High school, for the benefit of the Red Cross, Friday evening, August 16th.

The numbers will include readings, violin, vocal and piano selections.

Go and help the Red Cross.

G. M. Covey, one of our hustling farmer friends at Bondurant, Ky., brought in a fine sample of cotton of his raising Saturday. Cotton in sections is opening rapidly and the picking period is not far off.

YOUR LAST CHANCE: Our subscribers may still get the St. Louis Twice-a-Week Republic at 50¢ a year during the remainder of the month; after the first of September it will be \$1 a year.

"Uncle" Dave Hughes, one of our good colored friends, treated the editors to some fine cantaloupes Saturday.

## ALL IN CLASS 1.

Local Boards Would Advance All Married Prior to May 1.

Twenty-three out of twenty-nine of the local county boards were represented Thursday, at Princeton, at a meeting called by the district board for the purpose of agreeing on a uniform method of classification of registrants. By a vote of sixteen to seven a resolution was adopted recommending to the war department to place all men in class 1 who married prior to May 1, 1917, who have not been given deferred classification on industrial or agricultural grounds, irrespective of dependency claims.

Chairman Yost, who presided at the meeting, instructed Mr. Weir of the Daviess county board, to return to the district board all questionnaires of registrants who had been given deferred classification on industrial or agricultural grounds. It is believed that the district board is preparing to reclassify a number of registrants who have been given deferred classification on industrial and agricultural grounds. Only the district board has jurisdiction in these cases.

## THIRD VICTIM.

Claude Jackson Another Hickman Boy Reported as "Missing."

Alex. Jackson, of Hickman, R. F. D. No. 2, south of town, received a telegram from the War Department Friday advising him that his son, Private Claude Jackson, infantry, is officially reported as missing in action.

July 15th. Will report first information received.—McCain, the Adj't Gen.

The casualty list printed in Saturday's papers gave this young man as "killed in action." Inasmuch as the daily press reports, while not official, generally give out the news ahead of the Department's official advices, it is highly probable that his death will be confirmed later.

Private Claude Jackson was a volunteer, having enlisted at Hickman along with 23 others, July 24th, 1917 and was sent to Camp Taylor for training. Of course, he had been overseas for some time.

His untimely fate—if such it be—is regretted by his many friends in this section. He was a fine young man. If he has made the supreme sacrifice, he is the third Hickman boy to fall—and his memory will be revered by another gold star on the county's service flag.

## ROBT. CRADDOCK.

Died at County Farm Saturday at Age of 70 Years.

Robert A. Craddock, for many years a county charge, passed to his reward Saturday, after a short illness of bowel trouble. He was 70 years or more of age and his death occurred at the Fulton County Farm, just south of town. Deceased leaves a wife and one son. He was born and reared in this county. In the struggle for existence, he was less fortunate than most of his fellow men; want and penury stalked his path in old age—and to the end. Death closes his humble career, but it is untarnished, unspotted. If he saw no glittering star—life paid no measure of rapture—neither did death veil his couch in the uncertainty of dread—which more than oftentimes may be truthfully said of those of superior attainments—whose faults are quickly covered by the mantle of charity.

Jas. Maddox and wife, W. G. Adams, Miss Lois Curnin, D. C. Maddox and wife and Mrs. J. E. Olive composed a party that motored to Memphis Tuesday, returning Friday.

J. H. Boyle and Geo. Newton will give a barbecue, bran dance and ice cream supper at Stubbs Park tomorrow and tomorrow night.

Please don't ask for free copies of the paper. The Government has ordered that the giving of free copies be positively discontinued.

Robert Lee Brasfield, of Greenfield, Tenn., is spending this week with his cousin, Roger Burris.

... moved to Union City Saturday afternoon and were united in marriage by County Judge Kenney. They were driven over by Henry Pollock.

The bride is a daughter of the late R. E. Brice, an intelligent, attractive young lady. She is also a niece of the editor of the Union City News Banner. Mr. Bradley is a son of Richard Bradley, and is a well known young farmer. Both have many friends, who join the Courier in congratulations and best wishes.

### HUMAN FLY KILLED.

Roy Meyers, a steeplejack, called "The Human Fly," because of his exploits in climbing hazardous prominences, was killed Saturday when he fell from the cupola of the Joliet court house at Joliet, Ill., while performing in aid of the Red Cross campaign.

Meyers will be remembered particularly for scaling the Flat Iron Building in New York.

### CHAS. MAYO MISSING.

Chas. Spurgeon Mayo, son of Rev. Thos. Mayo, pastor at Poplar Grove and Reelfoot churches, but who resides at Dresden, Tenn., is reported as missing from the American forces in Europe. He was probably captured during the fighting in July, since which time he has not been heard from.

### A NICE DONATION.

Mrs. Tom Bone and Mrs. Harry Lee King, two of Fulton county's most excellent ladies, gave the local chapter of the Red Cross a nice lift Saturday, with a donation of \$11.13 which they raised through the sale of chickens and giving an ice cream supper. Their names should go the Red Cross Roll of Honor.

A woman who had been in the habit of giving checks on a certain bank permissively received a written notice from the bank informing her that her account was overdrawn, whereupon she called at the bank and said, "I'm glad you notified me. I will write you a check for the amount of the overdraft."

The dependent parents and the wives and children are receiving money for services of the boys who have been called to service. Uncle Sam pays his folks better for service than any government on earth.

In all walks of life we find the "four-fer," the tin whistle patriot, the fellow slacker, the grinch, the fellow who does far less than a buck private and crows to beat a major general—the noisy boys, who like a fly on a chariot wheel, exclaims, "what a lot we are raising;" so that it is refreshing to run up against the quiet, self-sacrificing civilian in the trench, who responds to every call of duty without any vaunting, any publicity, or fuss and feathers. We have in one shining example of the latter man, when approached by a committee of war workers, usually doubles or triples his allotment; doesn't flinch, asks questions, makes excuses, cry hard times—he's there with the goods, a 100 per cent American gentleman—Mr. Charles Bacon, of Hickman, Rfd. No. 4. (This information is furnished by his friends—not Charlie).

McKee Johnson, in charge of a U. S. Sharp-shooter squad, advises his father, R. B. Johnson, of the N. C. & St. L. Ry., that he has arrived in France. McKee has become an expert marksman since he entered the service. As a matter of fact, he comes from shooting stock; his grandfather was a sharp-shooter in the Confederate army, and the Johnson family are all reported to be handy with firearms.

W. B. McGhee, a popular and patriotic farmer of the Rush Creek section, called Saturday and slapped his signature to the resolutions drawn up by our citizens and business men, bidding not to do any business with men who are less than 100 per cent Americans.

After four days of the hardest work ever experienced, "breaking in" at Camp Taylor, Saad Salamy is back in Hickman, on a short furlough, wearing the United States uniform. He is with a depot brigade.

### \$5.25 PER CAPITA.

School Fund Large Enough for Only Six Months School.

A school per capita of \$5.25 and a six months' school term have been declared by Superintendent of public instruction V. O. Gilbert. Per capita is based on a total estimated revenue of \$3,582,557, which includes every item in which the school revenues have participated with the exception of the inheritance tax, which Auditor Greene declined to submit to Superintendent Gilbert. Heretofore, schools have participated in the inheritance tax fund, but Auditor Greene now holds that the law does not justify paying any part of the inheritance tax to the school fund. Superintendent Gilbert will institute a friendly suit against Auditor Greene to decide the question of having the schools share in the inheritance tax revenues.

Although the estimated revenues justify a \$5.25 per capita, Superintendent Gilbert was forced to declare a six months school term because of an overestimate made last year which resulted in a deficit of \$300,000 which must be met before the distribution is made.

### MORE MONEY.

Confederate Veterans Get Slight Increase in Pensions.

Thirty-five Confederate pensioners are reported as having died since the last quarterly distribution. In the November distribution the pensioners will receive \$37.50 instead of \$30, the rate of \$12.50 monthly going into effect this month.

While the increase is a modest one, it will be welcomed by the old "war horses," in these days of high costs. There are several beneficiaries in Hickman, who will have no trouble in disposing of the extra \$2.50 a month.

### QUEER BUT TRUE.

Why is it some Fulton county men who are as sharp as tacks in most things, are as careless as an infant in others? Get in a car and drive around the county and you will see farm implements everywhere exposed to the elements—plows standing in the fields, mowers, rakes, wagons and dozens of implements out in the rain from January to December. Lift a five-spot from the pocket of one of those fellows and he will either want to tick you or send you to the penitentiary to square up for his loss. But he lets many times that amount go to rags and ruin in exposing his machinery and implements to the elements without an apparent thought as to their value. Queer—but it's true.

Please bear in mind that the government has stopped the giving away of newspapers by publishers; a measure calculated to help conserve paper in the present paper shortage. They are also forbidden to give papers in exchange or to mail copies free to any one—friends, relatives or advertisers.

A cablegram announces that Rev. Henry J. Geiger, formerly pastor of the Episcopal church of Hickman, has arrived safely in France. He is chaplain in the 51st U. S. Infantry. Mrs. Geiger and son, Jewitt, of course, remain on this side.

Al Faris and wife, Miss Light Faris, Mrs. Conran and son, Mr. Conran, of Hickman, were here Thursday of last week enroute to New Madrid in the Faris car.—East Prairie, (Mo.) Eagle.

County Attorney Dee L. McNeill, who recently enlisted in the navy, has been called to report at Louisville, Monday. He will likely go from there to the Great Lakes training station.

The county Masonic picnic will be held at Willingham Bridge tomorrow (Friday). The Courier was furnished a wrong date in a previous announcement.

Misses Imogene Moore and Sophie Lunsford are attending business college in Bowling Green.

### FINE MAN GO

Samuel Hewitt Dies at Home; His Daughter Here Friday.

With only a slight illness of stomach trouble preceding his death, Samuel Hewitt passed over the Great Divide at 8 o'clock Friday morning. He was laid to rest in the city cemetery in late Friday afternoon, his daughter, Mrs. W. E. Baltzer, for the past seven years, having made friend with all with whom he came in contact. Mr. Hewitt was born in Liverpool, England, but came to this country many years ago, rounding out his business career as hardware and grocery merchant in Louisville, Ills., from which he and his wife came to Hickman. At that time they had two children, a son and a daughter, but the former, about four years ago, leaving Mrs. Baltzer as their only child, by whom they are survived.

Decesed was a staunch member of the Baptist church and devoted Mason, having attained the Royal Arch degree. Funeral services—largely attended—were held at the Baltzer residence at 5 o'clock Friday afternoon, Rev. H. M. Crain, of the First Baptist church, conducting the service. The body was consigned to its final resting place by the Masonic fraternity and with the honors of the order.

The Supreme Architect never called from among us a gentleman who left behind him a finer impression of Christian manhood, honor, kindness and genuine worth than our departed friend; and this should be a large measure of condolence to the daughter—and to friends—who mourn his departure.

## REAL VALUES

It isn't always the price you pay that determines real value—sometimes excessive prices are asked for inferior quality merchandise. Nothing here is overpriced. For instance if you spend 50c here for an article you can feel sure that you have received an article whose real value is 50c. You have our assurance for this. Proof positive will reveal itself upon careful inspection of our merchandise.

There never was a time when any one could really afford to pay more for an article than it was worth. But now it is trebly important that you receive 100 per cent. value for every cent expended. Here you can find dependable qualities at prices that give you what you are entitled to.

### A SOLDIER'S CHANCE.

The soldier has 29 chances of coming home to one chance of being killed.

He has 98 chances of recovering from a wound to 2 chances of dying.

He has only 1 chance in 500 of losing a limb.

He will live five years longer because of physical training.

He is freer from disease in the army than in civil life.

He has better medical care at the front than at home.

In other wars from 10 to 15 men died from disease to 1 from bullets.

In this war 1 man dies from disease to every 10 from bullets.

This war is less wasteful of life than any other in history.

### No Worms in a Healthy Child

All children troubled with worms have an unhealthy color, which indicates poor blood, and as a rule, there is more or less pain and discomfort.

GROVE'S TASTELESS CHILL TONIC given regularly for two or three weeks will enrich the blood, improve the digestion, and act as a General Strengthening Tonic to the whole system. Nature will then throw off or dispel the worms, and the Child will be in perfect health. Pleasant to take. 6c per bottle.

## War Time Sweeteners

MERICA has several excellent war time sweeteners that will be used largely during the shortage in the sugar supply. They are maple sugar, syrups, honey and molasses and may be used in preparing desserts and other dishes requiring sweetening. When a cup of syrup or honey is used to replace a cup of sugar the liquid in the recipes should be decreased one-fourth. One-third of a cupful of sugar is equivalent to one-third of a cup of honey, about one-half cup of syrup and about one-half cup of corn sugar. One-fourth of a cup of sugar is equal to about one-half cup of syrup or one-third cup of corn sugar. One tablespoon of sugar is equal to one tablespoon of honey, about one and one-half tablespoons of syrup and one and one-third tablespoons of corn sugar.

Sugar may be saved by the use of raisins, dates, figs, dried pears and fruit pastes used on the breakfast cereals.

Fruit marmalades, butters and jellies should be used to take the place of the ordinary sweetening at a meal and not as accessories to it. Fruits may be preserved without sugar. It may be added when sugar is more plentiful.

Preserving demands this year a thin syrup instead of a heavy syrup.

If sugar is used one-half of the amount may be replaced by another sweetener.

Drying is a means of preserving (without sugar) apples, cherries, strawberries and black caps.

When ready to use they may have added the needed sugar in the form of a syrup. When sugar is more plentiful fruit juices may be made into jellies or may be used as fruit juices with or without sugar, as beverages, fruit gelatins and frozen desserts.

Fresh fruits supply the place of sugar in the diet. They should be used freely. Desserts where sugar is scarce may be made of gelatins, junks, custards, puddings and cakes.

## SUITS FILED.

Several Cases of Interest Filed With Circuit Clerk Hampton.

W. W. Prewett vs. Green Adams, suit for \$160 damages. Plaintiff alleges that Mr. Adams placed diseased animals (having distemper) in a pasture with the former's stock; that one of his colts contracted and died from the disease. He wants to be reimbursed for the value of the animal, plus doctor bills, etc.

Commonwealth vs. W. M. Templeton and C. S. Patterson. Forfeiture of bond of Bernie Cleaves, amounting to about \$200.

G. W. Dawes vs. Will Whitnell, suit for \$308.90. Dawes and Whitnell seemed to have a joint interest in a crop of tobacco, which was raised and marketed by the latter. Dawes claims that his partner was not diligent or he would have had the crop on the market earlier, at a time when the price was higher, which would have given Dawes \$308.90 more than it brought on a later and lower market. He sues for the difference.

J. K. Walker vs. W. B. and T. W. Stallings. Suit for \$75. Plaintiff claims the defendants did some veterinary work on a colt for him and that the animal died because the work was "not done in a skillful manner." He values the colt at \$75.

R. B. Beadles vs. U. S. Fidelity and Guarantee Co. Suit for \$1,000. The company seems to have made bond for Ed Moss as administrator of the late J. M. Moss. There is some tangle or disagreement regarding a settlement, and Mr. Beadles asks the company to make good with the above amount.

Emma F. Tyler et al. vs. Allison S. Tyler. Suit to perfect land title.

R. G. Wood vs. Endora Wood. Suit for divorce. Couple was married in Alcorn county, Miss., Dec. 24, 1901. He claims his wife abandoned him in 1912.

## DEATH OF MRS. McMURRY.

Mrs. Eliza McMurry, widow of the late C. W. McMurry, died at the home of her daughter, Mrs. Eliza Caldwell, in Union City Saturday afternoon, August 3, after a week's illness. Mrs. McMurry came down from Nashville, where she lived with her daughter, Mrs. A. K. Wells, for a visit with Mrs. Caldwell and Mrs. J. V. Heffley, and was stricken while there. She was a sister of Mrs. J. G. McMurry, of Hickman.

## CARD OF THANKS.

J. M. Johnson Arrested on Charge of Attempting Forgery.

Deputy Sheriff Thomas arrested and placed in jail yesterday an 18 year old boy, giving his name as J. M. Johnson, on charge of attempting to forge a check at the Farmers & Merchants Bank on Herman Choate for \$25.

Cashier Travis saw there was something wrong with the signature (written Hurman Shote) and turned down the check. The young man went out and soon brought back another check, but little better. After being arrested, Johnson attempted to implicate a boy with him—Furge Virgil, but the latter was released after questioning.

## 30 MORE CALLED.

Twenty-One White and Nine Negroes Go to Camp This Month.

The Fulton County Draft Board has been advised that this county must furnish 30 drafted men for military training this month—between the 26th and 30th—at Camp Taylor. There are to be 21 white men and nine negroes. While the official list has not been drawn, we print below the next 25 white and 12 negroes in class one, and from this list the quota will likely be taken up, beginning with the names at the top:

### WHITE:

Emmett Ira Shupe, Fulton.  
Roy Emmett Pickering, Fulton.  
William A. Seurce, Cayce.  
Merritt A. Pullen, Fulton.  
Lawrence F. Lewis, Hickman.

## REGISTRARS.

Appointed to Hold Registration for Men 18 to 45 During September.

Registrars, for holding the registration under the new man-power bill, registering men between 18 and 45 years, have been named in all voting precincts, except Fulton, and are as follows, the first named in each precinct being the chief registrar:

East Hickman—J. W. Roney, J. W. Morris, J. H. Russell, Guy Hale, Jr.

Old Hickman—Rev. W. F. Remmen, Miss Ella Monan, Mrs. Nora Powell, Judge E. J. Stahr, W. C. Reed.

West Hickman—D. C. Megibbon, B. Turpin, Bob Wolsefer, F. M. Provow.

Lodgeton—Ed Williamson, Lon Blanford, T. E. Murdoch.

Cayne—W. B. McGeehee, Dr. J. W. Naylor, Smith Evans, Chas. Alexander.

Madrid Bend—J. R. Adams.

Sassafras Ridge—Esp. H. G. Shaw, J. J. Jones, Mr. LaMoore, H. C. Helm.

State Line—A. M. Shaw, J. M. Linn.

East Fulton—Bailey Huddleston and others.

Registration on Saturday, Aug. 24, of all youths who have reached the age of 21 since the second registration last June 5 was ordered yesterday by Provost Marshal General Crowder, under a proclamation by the president. The purpose is to add quickly to the almost exhausted class 1 to meet army draft calls in September.

## UTILIZE CULL VEGETABLES

Problem for Poultry Keeper Is to Get Greatest Number of Eggs Possible—Unproductive Hens Should Be Sent to Market.

Now that the hatching season is pretty well over, the problem for the poultry keeper, particularly for the back-yard poultry keeper, is to get the greatest number of eggs possible from the number of hens kept during the summer. Hens that are not good layers should be marketed. Unless the hens have already been carried through one summer, which is perhaps not the best practice for the back-yard poultry keeper, there is necessarily some difficulty in determining which are the good summer layers. The fact that a hen has been a good spring layer does not prove that she will be a good summer layer. Of course, no hen should be sold while she continues to lay, but a hen that has become broody may, after a brief period, begin laying again and continue through the summer. The condition of the comb will indicate some time in advance whether the hen will begin laying again. If she shows no indication of preparing to lay, it would be wise to sell or eat her. The time of moulting is perhaps the safest indication. Hens that moult early are not good summer layers, and it is good practice to sell all hens that begin moulting in June or early July.

**Summer House Problem.**

The problem of summer housing is not much less a serious one than that of winter housing. The principal requirements are fresh air, access to both shade and sunlight, dryness and room. The matter of air properly comes first, and free circulation of air practically insures dryness. Air and sunlight are nature's best disinfectants and germicides. But hens are very susceptible to an excess of heat and it is equally necessary that they have plenty of shade.

The problem of a summer ration for the back-yard poultry keeper is much easier of solution than that of a winter ration. In most cases the necessary green feed can be supplied without buying anything. Beet, carrot and turnip tops, waste leaves from cabbage and lettuce, onion tops, potato parings, watermelon and cantaloupe rinds, together with the clippings of grass from the lawn, will supply in most cases all the green feed required by the back-yard flock.

### Dry Feed Requirement.

Bread and cake crumbs, particularly if you can induce your neighbor who keeps no chickens to save hers for you, will go a long way toward supplying the dry-feed requirement. Meat scraps from the kitchen may be sufficient to meet the requirements for animal food, particularly if the hens have even a little range in which they can scratch for bugs and worms. Such scraps are best run through a meat grinder and mixed with three parts cornmeal and one part wheat bran. This should be fed at noon or later. If any grain is necessary, it should be fed in the morning and should be scattered in litter sufficient to make the hens work for it. Not more than a pint to ten hens should be fed in any case. Corn, either whole or cracked, and oats will be the most suitable grain feeds. If hens show a tendency to get too fat, the grain ration should be reduced, as excessively fat hens are never good layers. Some beef scrap should be fed if enough meat scraps from tables can not be procured to meet the requirements of the hens.

Hens should have constant access to grit or stones small enough to be swallowed and to crushed oyster or clam shells.

A matter of first importance is that the water supply be always plentiful and clean. Laying hens require a great deal of water, and it should be fresh and clean. Do not place the water receptacle where litter can be scratched into it. Wash it frequently enough to prevent the accumulation of green scum on the inner surface. Preferably, for summer, keep it outside the house and in the shade.

## MARRIAGES.

Dan Cupid Forces Eight Couples to Secure Marriage Licenses.

County Clerk Henry and deputy, Miss Monan, have had quite a little flurry in the marriage license department—averaging one a day—since last report, issuing licenses for the following:

G. W. Ferguson, age 45, and Mrs. Ada Disque, 38; both of this county.

Brown L. Crawford, 44, and Mrs. Minnie Hall, 35; of Hickman.

Vertie Wyatt, 21, farmer and son of Ben Wyatt; and Miss Jennie Wisdom, 20; residents of Obion county.

J. G. Dockins, 51, and Mrs. Mattie Campbell, 41, Hickman. The room is a blacksmith in West Hickman.

One other couple secured license—but the wedding has not taken place.

**LOST IN ACTION.**Robt. Alexander Fourth Hickman Boy  
Killed on Foreign Soil.

A telegram was received by W. H. Alexander, Saturday, from the War Department, advising him that his son Robert Alexander had been killed in action in France, July 15th.

Robert was 23 years old, born and reared on the old home place four miles from town. He was one of 23 young men who enlisted here as volunteers in July 1917 and went overseas in the early spring. In this squat, too, was Claude Jackson, whose death is mentioned elsewhere in this issue. Both boys were neighbors and friends, left together, and according to reports, made the supreme sacrifice on the same day, in the same engagement. Besides his parents, young Alexander is survived by five brothers and two sisters. He was well known here and bore a splendid reputation. His untimely death comes as a sad blow to loved ones and friends. He is the fourth Hickman boy (although registered from St. Louis) to fall a victim to Hun bullets. However great the glory of falling on the field of honor for right against might—the sad news of these young men's death makes aching hearts, and their loved ones have the profound sympathy of the entire community.

**MARKET GLUTTED.**

Lifting of Ban and Drouth Causes Big Drop in Cattle Prices.

Cattle are being slaughtered for canners, and even breeding stock is being dumped on the market. Packers have reduced prices 25 per cent because the beef market is glutted.

This is the condition, according to the food administration, that has lifted the ban on beef to the point of urging the consumer to eat the cut of lighter cattle.

The sudden throwing on the market of cattle in large quantities but of weight too light for suitable army use has been caused by the drouth over the cattle lands, notably in Texas. The market at Fort Worth, Texas last week broke all records with 50,000 head of cattle received in one day.

The situation is described as "tragic" in reports to the food administration. Cattlemen are sacrificing their finest breeding stock because they have not the finances to feed the herds and the cattle lands are being stripped. The drouth has been of almost three years' duration and the cattlemen have exhausted their finances in feeding the stock.

### AMERICANS ASKED TO - LIMIT USE OF SUGAR

**Must Use No More Than Two Pounds  
Per Person a Month if the Present  
Meagre Allied Sugar Ration  
Is Maintained.**

**Stocks Will Be Short Until Beginning of New  
Year—Ration May Be Enlarged Then.**

Two pounds of sugar a month—half a pound a week—that is the sugar ration the U. S. Food Administration has asked every American to observe until January 1, 1919, in order to make sure there shall be enough for our Army and Navy, for the Allied armies and for the civilians of those nations. By New Year's the world sugar situation will be relieved somewhat by the new crop. Cuban sugar of this year's crop will be arriving in this country. Every available sugar source will be drawn on by the Food Administration during the next winter months to maintain sufficient stocks here to keep up our national sugar supply. During October the first American beet sugar will arrive in the markets. By the middle of November some of our Louisiana cane crop will be available. All of this sugar and more may be needed to keep this nation supplied on a reduced ration and to safeguard the Allied sugar ration from still further reduction. In Europe the present ration is already reduced to a minimum.

**Our Situation.**  
The situation which the United States faces in its efforts to maintain fair distribution of sugar to the Allied world is as follows:

**Sugar supplies throughout the country, in homes, stores, factories and bakeries are at a low ebb. We must increase sugar shipments to the Allies.**  
Production of American beet and Louisiana cane crops have been disappointing.

**Porto Rico crops have been curtailed.**  
Immense sugar stocks in Java cannot be reached on account of the shipping shortage; ships are needed for troop movements and munitions.

**Army and Navy sugar requirements have increased as well as those from the Allies.**  
Most industries using sugar have had their demands reduced by one-half; some will receive no sugar.

**Households should make every effort to preserve the fruit crop without sugar, or with small amounts of sugar.** Later, when the sugar supply is larger, the canned fruit may be sweetened as it is used.

A fire occurred at the big plant of the Mengel Box Company at Mengelwood, Tenn., Monday morning at about 3:30 o'clock, destroying the large storehouse and commissary of the company and including several dwellings. The fire broke out in the store building and caused a loss of between \$75,000 and \$100,000 as nearly as can be ascertained, and with \$80,000 insurance.

The cause of the fire has not been learned. By hard work with a large force of men the fire was kept from millions of feet of lumber and other property.

## RED CROSS.

What Our Home Folks Are Doing to Help the Absent Boys.

The amount made by Mrs. Bruce Powell's entertainment was \$22.00 instead of \$12 as reported last week.

A part of the sweater yarn has been received and the knitters will please call for same. There are now about seventy-five knitting socks and the work is progressing nicely. Mrs. Maggie Randle, who superintends the knitting, asks that all knitted articles be sent in when finished so that report may be made promptly.

Blue Pond community had a sale last week making \$11.13 for the Red Cross. They also report \$7.00 additional, which the Sunday school at that place is giving to the cause.

A large quantity of outing has been received. Those engaged in cutting out garments at the work rooms were: Mesdames E. R. Ellison, E. Dobson, Maggie Randle, R. L. Bradley, Henry Cowgill, J. H. Millett, C. L. Walker, E. E. Reeves, Ella Henderson, Harry Threlkeld, Allie Goulder, H. C. Barrett, T. T. Swayne, Lawrence McMaken, Lowry Stone, E. B. Praether, Misses Annie Sherron and Mattie DeBow. Others who have taken work to the homes for the sewing are: Mesdames W. A. Johnston, C. B. Travis, Adkisson, R. M. Isler, R. E. Blow, R. C. Douglass, Ben Hertwick, T. A. Ledford, J. A. Thompson, N. Walker, Bruce Powell, W. A. Dodds. This sewing is now cut out and a sample finished garment can be taken out also. The chairman of this department asks that others who can do so will call at the work rooms and take home some of this plain sewing which now needs to be done. More workers are needed in this department.

## WAR CONFERENCE.

Plans Made for Big Day at Hickman on August 24th.

Will you help to make the War Conference, to be held at Hickman, Saturday, August 24th, the greatest day Fulton county has ever had?

This will be an all day affair, and we will have some of the best speakers in the state of Kentucky, among them Capt. E. Lucas Guest, who was born at South Grahamstown, South Africa. He served through the Anglo-Boer War, 1899-1902, twice mentioned in dispatches and given a commission in the fields at the age of 17, awarded King and Queen's South Africa War Medal and five clasps. He rejoined the forces in 1914 and served through the South African rebellion in German South West Africa, Belgium and France; was wounded at Langemark, north of Ypres. All of the male members of his family have served during the present war, one has been killed and another has been incapacitated from gas poisoning and shell shock received at Delville Woods in 1916.

This will be one of the greatest days Fulton county has ever had, and every man, woman, boy and girl is invited to come and spend the day. Bring your lunch. We will have other noted speakers and the program has been carefully arranged so as to give you something worth while.

## The KITCHEN CABINET

The happiness or unhappiness of men depends no less upon their dispositions than their fortunes.—Rochefoucauld.

### MORE GOOD SAVING DISHES.

As potatoes are plentiful this season as well as cheap, we may use more in our bread, adding to its moisture and keeping quality as well as making a palatable loaf. Where a large proportion of mashed potato is used it is necessary to add the flour gradually or it will not work in and if not enough flour is added the bread will be undesirable.

Scalloped Potatoes and Hominy.—Put six medium-sized potatoes through a ricer. Butter a baking dish and put a layer of potato in the bottom of the dish, then a layer of cooked hominy, seasoning well and cover with a layer of grated cheese. Repeat until a cupful of hominy, a cupful of grated cheese and the potatoes are all used. Cover with a cupful of milk and finish with a fourth of a cupful of dried crumbs well buttered. Bake in a moderate oven twenty minutes.

Slice bananas and brown in a little hot fat, sprinkle with lemon juice and a few grains of sugar. Serve with meat as a vegetable.

Oatmeal Macaroons.—Take one and a half cupfuls of oatmeal, parch it until it is light brown, then put it through the meat grinder, unless it is the steel cut oatmeal, that does not need grinding. Add a half cupful of coconut, a half cupful of sugar, creamed with a tablespoonful of fat, one well-beaten egg and mix all together. Drop by spoonfuls on buttered sheet and bake until brown. This recipe makes two dozen macaroons.

Banana Bread Pudding.—Place layers of buttered bread and sliced bananas in baking dish, beat two eggs, add a fourth of a cupful of sugar and two and a half cupfuls of milk with a pinch of salt, pour this over the bananas and bake until the custard is set. Tart jelly may be used instead of the lemon juice if desired.

Bananas With Strawberries.—Peel and mash four ripe bananas; mix thoroughly with a half cupful of crushed strawberries that have been sweetened to taste. Add whipped cream and serve in sherbet cups with whipped cream and a sliced berry on top.

A slice of ham spread with peanut butter and cooked in a little mix makes a change from the ordinary way of serving.

Teachers will please call attention to the big County War Conference announced for the 24th of this month. Have the school children practice our patriotic songs so that all can join in the singing that day.

The last county examination for teachers' certificates will be held in September. Those expecting to take this examination must attend the Institute August 26th.

Stuhs school reports the organization of a War Savings Society with Clyde Newton, President and Gladys Rice Secretary. Beech Grove has also organized with John Barnett, President and Rose Gray, Secretary. The pupils at that school now own about \$11.00 worth of stamps. Remember that the government asks every teacher to organize a society among the pupils. Pupils do not pledge to buy a definite number of stamps, but they save what they can to buy thrif stamps and bring the money to school every two weeks. The teacher will arrange with some one to have the stamps brought to the school for convenience. The stamps bought by the children are of course their individual property.

## Overcome Now Conditions Which Cause Chills and Fever

It used to be thought that people who lived in certain localities must submit to an annual attack of chills. But scientists have now convinced us that malaria germs poison and weaken the blood and cause chills and fever. They have also discovered effective medicines for destroying these germs. The germs of malaria weaken the blood so rapidly that the whole system is soon undermined.

### NYAL CHILL TONIC

is a remedy prepared from herbs that cannot possibly harm the body while destroying the deadly germs. These herbs contain blood enriching principles.

John McClannah, breach of the peace, 4 cases, fined \$5 and costs.

Chas. McNeill, breach of the peace, fined \$1 and costs.

Mac Cooper, same.

W. T. Grimes, "grabbing" (catching fish with hands, which is unlawful) fish, fined \$15 and costs.

J. R. Ryan, same.

E. H. Gordon and Fain Crews, both of Graves county, were tried on same charge but released. Gordon made a unique plea. He was caught out in the water by Game Warden Boors, but put up the plea that he was getting brush and other obstacles out of the water so that a party of ladies could safely go in bathing.

Ike Waynick, breach of the peace, \$5 and costs. He was also charged with malicious shooting with intent to kill, but this charge was dismissed.

Q. Bryant, breach of the peace, \$5 and costs.

Mary Curry, violating local option law, \$60 and ten days in jail.

Frank Thomas, same, \$50 and ten days.

Walsh Roberson, same, \$50 and ten days.

Geo. Bragg, charged with killing Tom Hughes (both negroes), dismissed.

What will you eat next winter? That depends upon what you put up this summer. If you let the chickens peck the tomatoes and permit them to decay on the vine instead of putting them in cans, next winter you will go to the grocer for this "fruit of the vine" and get it at a high price. If you fail to can the corn, as sure as you are born, you will come out at the "little end of the horn," when you get tired of dry diet when the snow is on the ground. The squirrel is smarter than some men and women, for he knows how to "gather nuts while the sun shines."

There is just one task just now for the American people, and that is "win the war." The long-tongued helpers of Germany who go about criticising the local draft board, the food conservation and other government helps, fail to realize that if we lose this war, all is lost. No man is a patriot or lover of his country who is not lending a helping hand. There are a few men whom it will take the German long-range guns to teach some common sense. It is better not to live at all than to live under German domination.

A German submarine operating off the North Carolina coast has launched a gas attack against the coast guard station and lighthouse on Smith Island. The gas was released from oil spread over the surface of the water by the submarine. Six men were overcome by the fumes, but none of them is expected to die.

**DROUGHT CONTINUES.**Dry Weather of Past Ten Days Greatly  
Damaged Growing Crops.

The drought in this section remains unbroken and is becoming a matter of serious moment. In the past ten days growing crops have deteriorated rapidly. Conserve men like W. H. Treas, Julian Choate, W. W. Prentiss and others believe that the corn crop is already cut on an average of 50 per cent. Cotton growers report a similar loss—and some say they are not expecting over 100 pounds of seed cotton to the acre—by reason of the drought, which has caused the plant to shed rapidly, even half-grown bolls. Practically all pastures have "burned up."

If we do not have rain soon, it will be necessary to begin feeding pasture stock. Water for man and beast is growing scarce and conservation has become a necessity. Fall plowing for wheat is impossible, as the ground is so dry and hard.

This state of affairs is not local by any means; other sections are even worse damaged. In portions of Kentucky there has been no precipitation since the last snow-fall. In large areas of many states it is said farmers will not make seed from their corn crops and have failed on hay.

The whole situation at present is very discouraging—at a time of all times, when it was to be hoped every section of the land would raise bumper crops, so necessary to feeding our armies, ourselves and our allies.

**WEATHER REPORT.**

Fair tonight. Friday fair and warmer.

**Barnacles on Warships.**

Warships have to be cleaned on the outside. On one ship alone 200 men worked all day scraping off 600 tons of animal and plant growth from its sides and bottom. This tremendous quantity of sea life had accumulated in less than two years, during which time the ship had traveled many thousand miles. The weight of the barnacles was so great that from 25 to 40 per cent more coal was consumed in maintaining the normal speed of the boat.

**Evaporation of Water.**

A scientist in Europe has figured that a particle of water evaporated from the ocean is condensed and returns again in ten days, but that it remains there 3,400 years before being evaporated again.

Mrs. Gertrude Henry and two children, of New Madrid, Mo., who have been visiting their father, E. E. Reeves have gone to Dawson Springs for a ten days visit.

A total of 174 white men and 132 negroes have been sent from this county to Camp Taylor since the questionnaire system was inaugurated. Thirty more are to leave this month.

**CALLED TO REST.**

Mrs. Frank Von Borries Died Suddenly at Louisville Yesterday.

Her loved ones and friends were shocked yesterday afternoon when a message came announcing the death of Mrs. Sallie Grace, wife of Frank Von Borries, business manager of the Hickman branch of the Mengel Box Company.

Following a nervous break-down, Mrs. Von Borries was taken to Louisville several months ago for medical treatment and rest. Late reports from her attending physician were reassuring, indicating that she was recovering her health and might soon be able to return to her home. Her sudden death, at a moment when she was thought to have been nearing the happy extreme of health and happiness, made the news of her death doubly tragic.

The good lady was just in the flower of womanhood, and one of the sweetest characters we ever knew; a lady of unusual refinement and intelligence. She had resided in Hickman several years, where she attained a large circle of friends who were generously devoted to her. Besides her husband, she leaves three bright children—Ted, Elizabeth and Frank, Jr., whose heartstrings are torn by her untimely departure and who sustain an inestimable loss.

Mrs. Von Borries was about 30 years of age and was reared at Montgomery, Ala. Full particulars are not available at this time. Funeral services, we understand, are to be held this afternoon at 3:30 o'clock, with interment at Louisville.

The many friends of Mr. Von Borries and children tender them sympathy in this dark hour.

**TAPPED SAFE.**Negro Boy Admits Taking Money  
From Bottling Works Safe.

Emmett Smith, a 15 year old negro boy, was caught Saturday with the goods on taking money from the safe of the Hickman Bottling Works. Saturday's haul was for about \$70, but he confessed that he had taken something over \$100 at various times in the past week.

While the force was gone to dinner each day, he would slip in, throw the one-turn combination on the safe and help himself to some spending money.

In Juvenile Court, Judge Stahr ordered the boy sent to the reform school to remain until of release age.

Burris Gladney, another negro boy, age about 15, was brought into the same court charged with rape. His case was transferred to the criminal court and the boy bound over to the grand jury.

**CARROLLTON COUNTY FARMER PRAISES VIN HEPATICA AS FINE NERVE AND STOMACH TONIC.**

Uses It For His Whole Family For Stomach and Nerves.

Mr. A. T. Tandy, farmer, Highland, Avenue, Carrollton, Ky., writes under date of February 2, that after suffering from nervousness and stomach trouble, he has found Vin Hepatica a fine medicine for such purposes.

"I have used several bottles of Vin Hepatica in my family the last three months," says Mr. Tandy, "and it is a fine medicine for nervousness and stomach trouble."

That is just the way thousands of others are talking about this famous Vin Hepatica, a prescription of eight of the finest all-vegetable stomach and

nerve remedies and tonics. It goes at once to the seat of the trouble, stops indigestion, arrests catarrhal conditions, acts on the liver, kidneys, stomach and bowels, enriches the blood, and tones up the entire system.

If you are nervous, have stomach, liver, or kidney trouble, or are in a weak and run-down condition, and need a fine tonic, come in and get a bottle of this great Vin Hepatica prescription, and take it on our recommendation.

**S. M. NAIFEH****HUNDREDS OF TOTS LISTED FOR BABY PAGEANT AT STATE FAIR**

Photo from the Cusick Studio, Louisville, Ky.

There is no feature of the Kentucky State Fair in which spectators exhibit a deeper interest than the charming and spectacular "Baby Pageant," which finds the Babies' Health Contest on Friday afternoon of Fair week. The pageant each year is entirely different in type and is kept as a surprise to State Fair visitors until the hour announced for its presentation on Friday. They are designed to exhibit spectacularly the gifts and graces of the three hundred or more winsome entrants in the Baby Contest and provide a delightful finale to a period which is of intense seriousness and importance to both mothers and babies, for it is in the Babies' Health Contest, instituted at the Kentucky State Fair in 1913, that babies between twelve and thirty-six months receive an examination and scoring of vast importance to the future physical welfare of the child. The babies are classed and scored on the same scientific basis that carefully-bred stock is handled, and they are gone over from head to foot by experts in eye, ear, throat, lung, brain and general-practice lines in a manner which leaves nothing undiscovered in regard to the little one's physical condition, the points needing correction or the fact brought forth that baby is devoid of weakness or blemish. To mothers unacquainted with scientific methods of baby care

and to those living in rural districts where such information is difficult and oftentimes impossible to obtain the Babies' Health Contests are valuable beyond measure, as is proved by the fact that in the city of Chicago statistics show that 11 per cent of the children die, while those looked after scientifically by the Infant Welfare Society lose only 3½ per cent. This demonstrates beyond argument that the Babies' Health Contests are educational along lines invaluable to the coming generation, and that all mothers should be provided with the knowledge of how to care for her baby, how to feed it, how to let it sleep, how to dress it, and how to remedy defects.

The Babies' Health Contest this year is under the supervision of Mrs. John L. Woodbury, who has handled it since its original introduction at the Kentucky State Fair in 1913.

The city babies who enter the contest are examined throughout the week prior to the opening of the Fair, September 9, in Kentucky State Fair Headquarters, in the Republic Building, and the babies from the rural districts are examined during Fair week in the Babies' Health Contest Building on the grounds. It is after the marking, scoring and tabulating is over that the babies are gathered for the pageant, which displays the charming tots to delightful advantage.

## EASTMAN DEAD.

Former Hickman Man Victim of Pneumonia at Nashville.

William Eastman, age 39 years, died at Nashville at 7 o'clock Friday evening, following an illness of "labor pneumonia," and the remains were brought back Saturday to Hickman for interment.

Mr. Eastman had for many years been employed by the Hickman of the Mengel Box Co., but a few weeks ago the family went to Nashville, where Mr. Eastman had secured employment with the government powder plant. His death, of course, came unexpectedly. He leaves a wife and two small children.

Funeral services were conducted Sunday afternoon at the home of Ben White, by Rev. E. L. Miley, of the Christian church, and the remains buried at the city cemetery with M. W. A. honors. Deceased was a highly respected man and has many friends in Hickman.

## BAND GREAT FEATURE.

The sixteenth annual Kentucky State Fair to be held in Louisville the week of September 9-14, will boast in Thaviu's Band of forty musicians one of the greatest musical organizations ever appearing at State Fair. The Thaviu organization is made up of forty splendidly trained musicians who are arrayed in military regalia and accompanying it is a coterie of solo artists of international repute, together with a galaxy of ballet dancers who are said to be terpsichorean wonders and fully up to the coryphees support of Pavlova, Genee or Ruth St. Denis.

Thaviu's Band was one of the sixteen great organizations which played

Thaviu.

at the Panama-Pacific Exposition, and it was the only one commissioned to play a return engagement. As a traveling organization it has visited all the principal cities of the United States and has invariably received a contract for a return engagement.

Thaviu himself is a musician of the widest culture and training and his leadership is demonstrated by the merit of his musicians' performances. His programs are made up of selections appealing to cosmopolitan ideas and are of a kind to delight crowds with tastes as diverse as that of a State Fair.

## WOMEN TORTURED!

Suffer terribly with corns because of high heels, but why care now.

Women wear high heels which buckle up their toes and they suffer terribly from corns. Women then proceed to trim these pests, seeking relief, but they hardly realize the terrible danger from infection, says a Cincinnati authority.

Corns can easily be lifted out with the fingers if you will get from any drug store a quarter of an ounce of a drug called freezzone. This is sufficient to remove every hard or soft corn or callus from one's feet. You simply apply a few drops directly upon the tender, aching corn or callus. The soreness is relieved at once and soon the entire corn or callus, root and all, lifts out without one particle of pain.

This freezzone is a sticky substance which dries in a moment. It just shrivels up the corn without inflaming or even irritating the surrounding tissue or skin. Tell your wife about this.

Tut, tut, tut! Think of it—not a store in Hickman, we are told, has a Bible for sale. Has the demand been so heavy that stocks are exhausted—or so little that merchants do not carry them?

Series "F-3" still open for new members. See the secretary this week.

## This Is Worth Reading

If I owe you it will be a pleasure for me to pay you, would it not? Didn't I do you a favor when I sold you on a credit with the promise to pay in a short time? You can answer that. Below I am going to give you a list of figures with no names attached which no doubt will remind you that "W. A. Dodds sure did favor me and I must pay him for I might need a favor some time in the future." Some no doubt will say "I have got him beat good and proper; let him get his money the best he can." This class I want to come and get their receipt in full of account.

and quite a number of accounts \$50.00 and up. Now, gentlemen, do you realize that it takes money to pay for lumber, etc., that I sold you and trusted to you to make payments promptly. Some customers, and I am sure most of them, will come direct and see if any of these accounts are theirs, and if they find they are not, will pay their account at once whether they are on the list or not. Come and see.

Yours truly,

## TO STOP MAKING CARS.

Automobile manufacturers were advised to convert their plants to 100 per cent war work as soon as possible by the War Industries Board. Steel, rubber and other materials necessary in the manufacture of passenger cars cannot be assured for any period in advance, it was stated, and those concerns having large stocks of steel on hand probably will be required to turn it over to the Government.

I continued its use and am now free from pain and able to do all my housework."—Mrs. B. B. ZIELINSKA, 202 Weiss Street, Buffalo, N. Y.

Portland, Ind.—"I had a displacement and suffered so badly from it at times I could not be on my feet at all. I was all run down and so weak I could not do my housework, was nervous and could not lie down at night. I took treatments from a physician but they did not help me. My Aunt recommended Lydia E. Pinkham's Vegetable Compound. I tried it and now I am strong and well again and do my own work and I give Lydia E. ## THIS IS NEW TO US.

It is said "you have to go away from home to learn the news," and we judge that to be a fact after reading the following from one of our exchanges: "Hickman, Ky., Aug. 3.—Discovery in the nick of time probably saved the lives of many soldiers when a troop train going north, barely escaped running into the crosses placed on the Illinois Central tracks near Rosine, this county. The spikes were also removed from two of the rails, and the obstruction was placed on the track near a steep embankment. Had the train struck it the loss of life would have been great. Officials are investigating."

As a matter of fact, there is no such place in this county, and some one has his wires crossed.

## NO VOLUNTEERING.

To prevent disruption of industry pending disposition of the bill proposing to extend draft ages to include all men between 18 and 45 years, voluntary enlistment in the army and navy was suspended completely Thursday on orders issued by Secretaries Daniels and Baker. Civilians are also excluded from appointment to officers' training camps until further notice.

LEMON JUICE IS  
FRECKLE REMOVER.

Girls! Make this cheap beauty lotion to clear and whiten your skin.

Squeeze the juice of two lemons into a bottle containing three ounces of orchard white, shake well, and you have a quarter pint of the best freckle and tan lotion, and complexion beautifier, at very, very small cost.

Your grocer has the lemons and any drug store or toilet counter will supply three ounces of orchard white for a few cents. Massage this sweetly fragrant lotion into the face, neck, arms and hands each day and see how freckles and blemishes disappear and how clear, soft and white the skin becomes. Yes! It is harmless.

## EIGHTY-ONE.

Persons in Kentucky Are Rated as Millionaires.

How many millionaires are there in the State of Kentucky?

A report just issued by the commissioner of internal revenue giving detailed statistics of internal tax collections throws an interesting light on the subject.

Counting 5 per cent as a reasonable average return on a large fortune there are eighty-one millionaires in Kentucky, as there are that many individuals who report annual incomes of \$5,000 and over.

There is one person in Kentucky has an income between \$1,500,000 and \$2,000,000 a year. No names are given and everyone is left free to guess as to the identity of the holders of the mommoth fortunes.

The constant aching of a bad back, the weariness, the tired feeling. The pains and aches of kidney ills may result seriously if neglected. Dangerous urinary troubles often follow.

A Hickman citizen shows you what to do.

Mrs. R. C. Smith, 813 Catlett St., says: "Over eight years ago I suffered with an attack of kidney trouble and backache. My kidneys acted too frequently and I was annoyed a lot with my back. Once when I bent over, a terribly sharp pain caught me in the small of my back and made me scream. It was some time before I could straighten up. I bought Doan's Kidney Pills at Helm & Ellison's Drug Store and one box gave me such good results, I haven't had to use any kidney medicine since."

Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Smith had. Foster-Milburn Co., Mfgs., Buffalo, N. Y.

Maxwell Truck Closes Cross-Country Trip Heavily Loaded.

The Maxwell Military Express, the 1-ton Maxwell truck carrying war supplies from Australia for shipment to France from New York, reached New York at 11 a. m. last Saturday, completing its trip according to a dispatch just received by C. B. Parrish, the Maxwell distributor, Hickman.

The run of the Maxwell truck sets a new truck record across the continent. The distance was 3418 miles and the tour occupied sixteen and one half days. The original schedule called for a daily average of 100 miles. The actual average was above 107 miles a day. The telegram reported the gasoline mileage at twelve miles per gallon. Ray McNamara, road engineer for the Maxwell Company, drove the truck.

## LODGE NOTES

A FAMILY  
MEDICINE

In Her Mother's Home, Says This  
Georgia Lady, Regarding Black-  
Draught. Relief From Head-  
ache, Malaria, Chills, Etc.

Ringgold, Ga.—Mrs. Chas. Gaston, of this place, writes: "I am a user of Thedford's Black-Draught; in fact, it was one of our family medicines. Also in my mother's home, when I was a child. When any of us children complained of headache, usually caused by constipation, she gave us a dose of Black-Draught, which would rectify the trouble. Often in the Spring, we would have malaria and chills, or troubles of this kind, we would take Black-Draught pretty regular until the liver acted well, and we would soon be up and around again. We would not be without it, for it certainly has saved us lots of doctor bills. Just a dose of Black-Draught when not so well saves a lot of days in bed."

Thedford's Black-Draught has been in use for many years in the treatment of stomach, liver and bowel troubles, and the popularity which it now enjoys is proof of its merit.

If your liver is not doing its duty, you will suffer from such disagreeable symptoms as headache, biliousness, constipation, indigestion, etc., and unless something is done, serious trouble may result.

Thedford's Black-Draught has been found a valuable remedy for these troubles. It is purely vegetable, and acts in a prompt and natural way, regulating the liver to its proper functions and cleansing the bowels of impurities. Try it. Insist on Thedford's original and genuine. E 79
